SUBJECT: CO-CURRICULAR AND EXTRA-CURRICULAR PROGRAMS

The Board of Education recognizes the educational values inherent in student participation in district extra-curricular programs. Programs should be open to all students and further develop students’ interests in school related areas, community projects, athletics, music, environment, and other activities deemed appropriate by the Board of Education.

Recognizing that student activities are a part of the school program, the following are the criteria which all student activity programs must meet:

1. Student activities must have educational value;
2. Student activities must be in balance with other curricular offerings in the schools; and
3. Student activities must be managed in a professional manner and sponsored by a faculty advisor.
