

What does it take

to achieve your dreams? What do you want to be when you grow up? What different career opportunities are there for your interest? Join the Girl Leadership Committee for their **“Unapologetically Fearless since 1912”** event for the answers to these and many more questions. Let your voice be heard by speaking with women in non-traditional careers and trades. Take part in a panel discussion where panelists tell their stories about how they achieved their career goals. Girls will also get to visit different stations to mingle with professionals and get more information about different careers while enjoying some delicious treats.
