I. Pledge of Allegiance/Call to Order/Opening Remarks
President Lester called the meeting to order at 7:37 PM, led the community in the Pledge of Allegiance and welcomed everyone back.

II. Superintendent's Report – Mr. Weiss
Mr. Weiss discussed the good, the bad and the ugly start to the school year. The good included positive feedback from the teachers and students who got right back to work. The bad included hot classrooms and the bus passes not being received in a timely manner. Mr. Weiss apologized for that. He thanked the staff for making sure the children all got home safely. The lateness of the calendar made opening difficult; there were missed bus runs. He debriefed with staff and will speak with PTA.

Mr. DeVito was deeply sorry about the school opening. He met with parents. Mr. DeVito addressed each issue directly: late buses, incorrect information, bus stop/map changes, bus breakdowns, responses to phone calls, and parent access to transportation. Next year there will be a clear operational outline with school administrators; there will be more collaboration between transportation and the
schools. The database will be verified earlier. Transfinder created less dangerous bus stops but the changes caused confusion. Alerts will be made in advance; parents won’t have to rely on the website or Twitter. There will be more sufficient checks and balances in place when a bus driver does not report to work. The checklist will be reviewed to discover why any bus would breakdown so early in the school year. An email tracking system may be installed to insure a timely response to messages; a phone tree may be created to give callers options.

PUBLIC COMMENT
- Carol Perez – 21 Arizona Avenue – must bridge communication between emergency contact and transportation (should work better under new system).
- Joanne Rea – 90 Connecticut Avenue – expressed her disappointment with the change to Transfinder and was upset that her granddaughter was never picked up on her first day of Pre-K. She suggested that both transportation programs should have been run simultaneously this year.
- Dorothy Byrne – 262 W. Beech St – described her ordeal with Kellenberg and transportation for the first week of school. She expressed her displeasure with the lack of communication.

BOE COMMENTS
- Board Member Tangney asked how transportation provided to private school students the week before public school started was determined; response to parents; questioned if we have something in place so that we can respond immediately when a bus driver does not show up for work.
- Board Member Ryan noted that it is very important to respond immediately to the community.
- Board Member Mininsky asked whether parents of incoming freshman must notify the district (yes).
- Board Member Tangney expressed outrage at the handling of the transportation issues by the department. She noted the innumerable phone calls she received and the negative comments on social media. It was an embarrassment that parents were unable to speak to anyone at transportation and that the gate was padlocked. She also expressed disappointment with the reconfiguration of the transportation office. On a positive note, Mrs. Tangney stated that the schools were beautiful when she did her pre-opening of schools tours and thanked the staff for doing an amazing job. The district must look into fans/AC for the classrooms.
- Board Member Ryan complimented the bus drivers despite the setbacks; visited four (4) buildings on opening day; district should consider portable AC units.
- Board Member Vrona toured the building and also felt that the custodial staff did an amazing job. She gave a “shout out” to PTA for their responses to the phone calls, got the bus routes out and helped keep many of the parents calm.
- Vice President Mininsky suggested that the heat issues be addressed in the Wellness policy.

Mr. Weiss thanked the administrators, clerical staff and teachers who came in last week to get everything ready for the new school year.
III. President Lester called for Board of Education Comments

- Board Member Ryan commented on the length of the presentation, preferring they be more concise (less than 20 minutes). He noted his concerns regarding mathematics, supports the coaches; glad that there is no more AUSSIE and that professional development is embedded; concerned about the “opt-outs” and suggested a parent presentation on it; we need to improve the need for testing and assessment, a public forum; would like more comparative data on performance versus other local school districts; voiced concerns about summer school and thinks money is not being spent wisely; increasing graduation rates isn’t a good enough reason to have summer school; noted gender differences and the need for male teachers in the elementary school classrooms; would like to re-visit Attendance Policy to address summer school at a Policy Review Committee meeting; glad that Mr. Murray is handling AIS and RTI.

- Board Member Vrona thanked everyone; would have preferred three (3) presentations; asked if we cannot use results from state assessments than why not just use NWEA (individual results are constructive); sixth graders will have different graduation requirements so we need to stay focused on the HS; asked about progress on the resolution regarding Regents grades and final grades; supports the idea of an “opting out” forum which would help develop a stance on how to advocate; questioned reading progress; math is a major concern, followed by science.

- Board Member Tangney inquired about the rolling out of the parent-child home program (protocols); asked about what strategies we have learned from the LICEE program (eye-opening info on differentiations, poverty, pre-conceived notions) and how it is disseminated (principal meetings).

- Vice President Mininsky is looking for answers regarding the gender gap (economics); supports forum for “opting out” which is not good for the students or the district (December/January).

- President Lester noted that gender differences go across all classes and must be addressed; questioned whether Asian students made participation rate.

IV. President Lester called for Questions and Comments from the Public – Items on Tonight’s Agenda Only

- Matthew Adler – 410 E. Broadway – disagreed with “opting out” being a radical movement; parents knew plenty; tests were flawed. Algebra counts; geometry not required (only one Regents in math is required); assessments should not form instruction; instruction should form evaluation.
Questions and Comments from the Public – Items on Tonight’s Agenda Only

- Michael Abner – 91 Regent Drive – while school focuses on different diplomas reality is once you get to college; since life is about taking tests, he requested that the school help the parents/students with test taking skills since doing well on tests is essential.
- Cynthia Viteri – 435 E. Hudson St – had questions about the MS and the achievement gap as it spirals up to the HS; asked about the MYP transition in HS.
- Jill Butensky – 38 Fairway Road – voiced concerns about the negative affect of the Regents on student grades; supports literacy and math coaches; gender differences are everywhere; kudos to district for positive changes; video production class is great.
- Tina Hommel – Lido Elementary PTA – 427 E. Chester Street – there are three concerns with the “opting out” parents – teacher evaluations, testing above level and inability to do remediation; assessment does guide evaluation.
