Ladies and Gentlemen:

The Long Beach Board of Education is the authorized state agency responsible for setting educational policy in the district. It consists of five trustees, each serving a three-year term. Board members pay school taxes at the regular rate and receive no salary or other financial compensation.

All meetings, except executive sessions, are held before the public. Members of the public may address the Board of Education on any specific agenda item during special time reserved for that purpose prior to Board discussion and action. The public may also address the Board of Education on any matter of concern at a second public session after the Board of Education completes agenda action items. Visitors should not address the Board in public relative to questions or comments regarding specific staff members or specific students. Such concerns should be brought to the attention of appropriate staff or to board members by telephone, in writing, or by scheduling a personal meeting, as appropriate to the circumstances.

Visitors' comments will be limited to three (3) minutes for each agenda item upon which comment is made. Visitors are precluded from speaking on any agenda item more than once during each meeting.

Sincerely,

Your Board of Education

SUBJECT: FIELD TRIPS AND EXCURSIONS

The Board of Education recognizes the need to provide off-campus experiences which will enhance the educational program of the school system. The Superintendent of Schools will promulgate regulations concerning frequency, supervision, safety, purpose, cost, support of curriculum, educational value, approval process and implementation of field trips. Student behavior on field trips is governed by the District's Code of Conduct.

Factors relevant in consideration of approval of such field trips may include the relationship to the curriculum, testing schedules, the distance of the trip, availability of transportation, the cost involved, weather conditions, full utilization of transportation and safety and security matters.

All trips will be subject to review through a district process with the approval by the Superintendent or her/his designee. Each student must secure the written permission of his/her parent or guardian before participating in such activity. All such permission slips must be signed and returned by the established date or at least two school days prior to the trip.

The Principal and/or Superintendent or her/his designee has the right to cancel a trip for any reason.

Overnight Travel

Trips in excess of one day involving overnight or out of state travel shall be approved by the Superintendent of Schools prior to making any commitments or arrangements. A request for an overnight trip should be made at least two months in advance of the planned event. If a student has to return prior to the conclusion of a field trip it is the parent's responsibility to make provisions for the return.

Supervision

The ratio of adults to students shall be no fewer than 1:10 for all overnight field trips. For a day field trip, the ratio of supervisors to students shall be determined by the building principal based upon the following:

a) Age of students;
b) Nature of activity;
c) Distance and location of trip;
d) Site supervision available.

All students are to be accompanied by at least two (2) teachers/chaperones when going to, or returning from, a school-sponsored field trip.
SUBJECT: FIELD TRIPS AND EXCURSIONS (Cont'd.)

At the discretion of the teacher and Principal, students whose behavior could have an adverse effect upon the successful fulfillment of the educational objectives of the field trip may be denied permission to participate on a field trip. Such decision may be appealed to the Superintendent of Schools.

Field trips to view a movie rated "R," i.e., requiring a child under seventeen (17) years of age to be accompanied by an adult, will only be permitted for those students whose parent/guardian signs a permission slip which explains that the child shall be attending a movie with an "R" designation.

Transportation

When the District provides transportation to students on a school sponsored field trip, extracurricular activity or any other similar event, it shall provide transportation back to either the point of departure or to the appropriate school in the District unless:

a) The parent or legal guardian of a student participating in such event has provided the District with a written notice authorizing an alternative form of return transportation for the student with another adult; or

b) Intervening circumstances make such transportation impractical.

Where intervening circumstances have made transportation back to the point of departure or to the appropriate school in the district impractical, a representative of the District shall remain with the student until such student's parent or legal guardian has been contacted and the student has been delivered to his/her parent or legal guardian.

SUBJECT: STUDENT HEALTH SERVICES

The Board of Education recognizes that good student health is vital to successful learning and realizes its responsibility, along with that of the parents, to protect and foster a safe and healthful environment for the students.

The school shall work closely with the student's home to provide detection and preventive health services. In accordance with law, the school will provide vision, hearing, and scoliosis screening. Problems shall be referred to the parents who shall be encouraged to have their family physician provide appropriate care.

Schools shall also provide emergency care for students in accidental or unexpected medical situations.

A permanent student health record shall be part of a student's cumulative school record and should follow the student from grade to grade and school to school along with his/her academic record. This record folder shall be maintained by the school nurse.

Communicable Diseases

It is the responsibility of the Board of Education to provide all students with a safe and healthy school environment. To meet this responsibility, it is sometimes necessary to exclude students with contagious and infectious diseases from attendance in school. Students will be excluded during periods of contagion as follows:

Chicken Pox: Infected persons should remain home until the blisters become dry and crusted

Pediculosis: *No exclusion for lice. Nurse coordinates care of the affected student and provides evidenced based educational materials.

Conjunctivitis: Pink or red conjunctiva with white or yellow discharge often with matted eyelids after sleep and eye pain or redness of the eyelids or skin surrounding the eye until examined by a physician and approved for readmission.

Impetigo: Excluded until permission from the Health Care provider or until 24 hours after starting antibiotics.

Scabies: Students will be excluded until a physician's note indicates that the condition has been treated satisfactorily.

Ringworm: After treatment with medicine, student can return to school if lesions are covered.

Hepatitis, Meningitis or Tuberculosis: Students will be excluded until a physician's note indicates that the student is no longer contagious.

Communicable Diseases (con’t)

Other Infectious or
Contagious
Diseases: Call the Department of Health

It is the responsibility of Building Principals, working through district health personnel, to enforce this policy and to contact the New York State Department of Health and the County Board of Health immediately upon notification of an outbreak, even if one student, of a communicable disease.

Immunization of Students

Every student entering or attending a District school must present proof of immunization or proof of immunity by serology (blood test) if applicable unless a New York State licensed physician certifies that the immunization is detrimental to the student's health. The requirement for that immunization is waived until the immunization is no longer detrimental to the student's health.

Except for this exemption, the District may not permit a student lacking evidence of immunization to remain in school for more than 14 days, or more than 30 days for an out-of-state or out-of-country transferee who can show a good faith effort to get the necessary certification or other evidence of immunization.

The administration will notify the local health authority of the name and address of excluded student and provide the parent or person in parental relation a statement of his or her duty regarding immunization as well as a consent form prescribed by the Commissioner of Health. The school will cooperate with the local health authorities to provide a time and place for the immunization of these students.

For homeless students, the enrolling school must immediately refer the parent or guardian of the student to the District’s homeless liaison, who must assist them in obtaining the necessary immunizations, or immunization or medical records.

The District will provide an annual summary of compliance with immunization requirements to the Commissioner of Health.

All schools will also post educational information on influenza and the benefits of influenza immunization which will be in plain view and available to parents.
